## **III. POLICY INITIATIVES**

# I. CURRENT DOMESTIC SITUATION

## *Economic Growth*

In the third quarter of 2006, exports of goods and services continued with a robust expansion by 13.1% from the previous year. Despite improving performance in employment and the stock market, private consumption was held back by deteriorating consumer credit, growing merely 0.4%. Private investment rose 5.6%, thanks to a strong recovery in the real estate market. The economy grew 5.0% in the third quarter of 2006, and is forecast to expand 4.4% for the entire year.

### **Real GDP Growth (Change form a year ago)**

	Economic growth	Domestic demand								Net foreign demand

# CURRENT DOMESTIC SITUATION

## Major trading partners

- ⇒ Imports from and exports to Hong Kong and Mainland China have expanded the fastest during most of the last five years. Exports to ASEAN economies have gained momentum in the past two years.
- ⇒ Trade shares of the United States, Europe and Japan have narrowed in contrast to increasing shares of Hong Kong and China and ASEAN.

## Changes in Two-way Trade with Major Trading Partners

		Exports					Imports					Yoy %
		USA	Japan	Europe	Hong Kong and Mainland China	ASEAN 6*	USA	Japan	Europe	Hong Kong and Mainland China	ASEAN 6*

# CURRENT DOMESTIC SITUATION

## Domestic Investment

Private investment fell 3.9% in the first half of 2006 as the high-speed railway and a naphtha-cracker projects and the imports of airplane approached to end. It returned to a positive growth of 5.6% in the third quarter, thanks to a 16.6% boom in real estate and an 11% increase in machinery and equipment. The entire year is expected to see a 1.3% growth in private investment.

### Gross Fixed Capital Formation: Real Growth and Current-price Value

NT\$ billion; yoy %

# CURRENT DOMESTIC SITUATION

## Prices

Thanks to higher prices of chemicals, basic metal products, petroleum and coal products, wholesale prices in December 2006 increased 6.5% from a year ago. Consumer prices rose 0.7%, with increases in fishery, oil, gas, power and tobaccos offsetting decreases in vegetables and fruits. Core prices (excluding fresh food and energy prices) rose 0.7%. For the whole year, CPI and WPI increased 0.6% and 5.6%, respectively.

# CURRENT DOMESTIC SITUATION

## Money Supply

In December 2006, M1B and M2 grew 5.4% and 5.8%, respectively, from a year ago. During the 12 months of 2006, M1B and M2 expanded 5.3% and 6.2%, respectively.

Source: Central Bank of China (Taiwan).

# CURRENT DOMESTIC SITUATION

## Short-term Interest Rates

Market interest rates have been rising steadily and slowly since the second half of 2004. The real rates remain below the neutral level, according to the Central Bank. In December 2006, commercial paper rate and interbank rate recorded 1.66% and 1.661%, respectively. The rediscount rate has been raised ten times since October 2004 from 1.375% to 2.75%.

## II. PROSPECTS

---

2006

- ⇒ In 2006, continued buoyancy in exports as well as a gradual return to normal pace of domestic demand expansion could enable the economy to grow 3.2% in the fourth quarter of 2006 from a very high base last year. For the whole year, economic growth has been estimated to be above 4% by major domestic research institutions.

2007

- ⇒ With the global economy cooling somewhat, foreign demand would expand at a slower pace in 2007. Continuing improvements in job and consumer credit markets are expected to help achieve a more steady growth in private consumption. Capacity upgrading in semiconductor production and new acquisitions of airplanes should help sustain the momentum in private investment. Investment by the public sector would see positive but limited growth. Inflationary pressure is likely to ease, with wholesale prices and consumer prices increasing 3.9% and 1.5%, respectively.

# FORECASTS FOR ECONOMIC GROWTH

		2005	2006	2007
Forecasting institution	Release time	%	%	%

# Macroeconomic Targets for 2007

---

- ⇒ The economy is targeted to grow 4.6% in 2007, with CPI increasing no more than 2.0%. Unemployment rate will be kept around 3.8%, with employment increasing 1.5% and labor participation rate standing at 58.0%.
- ⇒ Sources of targeted growth mainly come from domestic demand.

	<b>Target for 2007</b>
<b>GDP growth (%)</b>	4.6
<b>Per capita GDP (US\$)</b>	16,886
<b>Consumer price increase (%)</b>	< 2.0
<b>Unemployment rate (%)</b>	3.8
<b>Demand components (Percent of GDP)</b>	
National consumption	74.13
Domestic investment	20.51
Goods-and-services trade balance	5.36

## III. POLICY INITIATIVES

---

- The socio-economic environments at home and abroad have changed rapidly in recent years, with globalization intensifying international competition, and the problems of population aging and a low birth rate emerging in Taiwan. To address these challenges and act upon the conclusions of the “Conference on Sustaining Taiwan’s Economic Development” (COSTED), the Executive Yuan has formulated the “Economic Development Vision for 2015” and mapped out its “First-Stage Three-Year Sprint Program” for 2007~2009.
- This initiative involves the re-examination and adjustment of socio-economic systems and development directions, with the aim of advancing toward a “prosperous, just, sustainable and beautiful Taiwan” in 2015 as the new vision and target of efforts for national development. It will be implemented in stages under three sequential “Three-Year Sprint Programs.”

# Taiwan's Image for 2015: a Beautiful Land of Prosperity, Justice, and Sustainability

# A Prosperous Economy

- ◆ **Leading-edge innovation ability**
- ◆ **Outstanding Taiwan image**
- ◆ **Top-notch manpower resources**
- ◆ **Booming emerging industries**

1996~2005

- ◆ Average annual GDP growth of 4.5%, derived from:
  - Labor input contribution 13.3%
  - Capital input contribution 53.3%
  - Technical progress contribution 33.4%

2006~2015

- ◆ Average annual GDP growth of 5.0%, derived from:
  - Labor input contribution 12.0%
  - Capital input contribution 36.0%
  - Technical progress contribution 52.0%

⇒ Innovation and value-added become the main driving forces of economic growth

# Caring and Just Society

- ◆ Warm solicitude for welfare
- ◆ Dignified safeguards of life
- ◆ Sound child-raising environment
- ◆ Balanced urban-rural development

Expanding the winners' circle and bring more outsiders inside the circle

Reducing the gap between the inside and the outside of the circle

Income Gap	2003	2004	2005
Top quintile of income distribution as a multiple of the bottom quintile	6.07	6.03	6.04
Gini concentration coefficient	0.343	0.338	0.340

## Targets and Outlook for 2015

### Warm solicitude for welfare

- ◆ Under a sustainable, comprehensive social safety net, the elderly, poor, disabled, new immigrants, and other disadvantaged members of society will be warmly cared for by the government, and the gap between the income of the top and bottom quintiles will be reduced below a ratio of six.

### Dignified safeguards of life

- ◆ Under comprehensive national pension, medical protection, and long-term care systems, full safeguards will be provided for the people's dignity of life.

### Sound child-raising environment

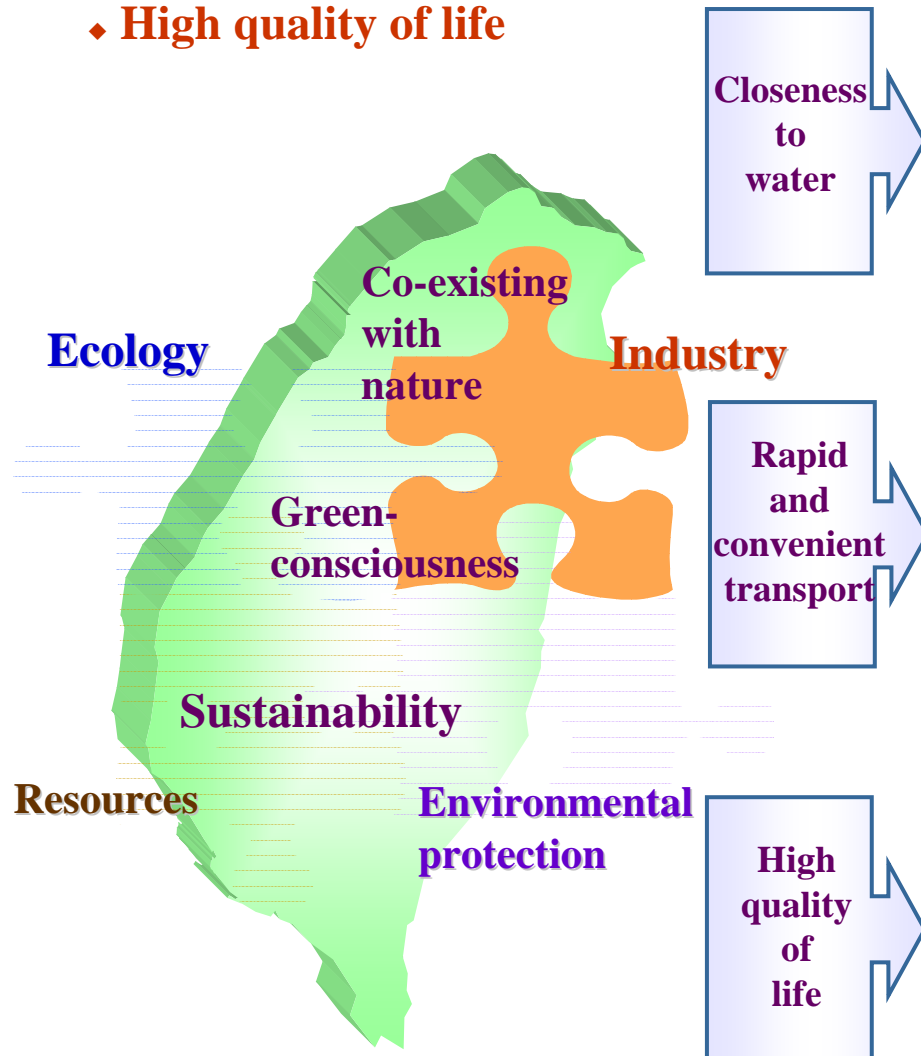

- ◆ With the provision of maternal and family protection, education benefits, employment promotion, and other such measures, the people's needs for having, raising and educating children will all be safeguarded; the unemployment rate will be kept below 4%, and the female labor-force participation rate will rise to over 50%.

### Balanced urban-rural development

- ◆ The urban-rural divide will be narrowed, and cities and counties, main and offshore islands alike, will all be able to enjoy the same economic opportunities, educational resources, public services, and medical care.

# Sustainable Green Environment

- ◆ Closeness to water
- ◆ Rapid and convenient transport
- ◆ High quality of life

## Targets and Outlook for 2015

- ◆ Flood control measures will achieve conspicuous results in effectively protecting 600 square kilometers of flood-prone land.
- ◆ A safe water supply will be assured, homes and industry will have ample water to use, and the tap-water connection rate will be 94%, the same level as in advanced countries.
- ◆ Sewerage systems will be extensively in place, and the wastewater treatment rate will reach 50%.
- ◆ Green infrastructure will be prevalent, with the development of 47 river systems, and every county and city having at least two waterside living environments, to provide nearby residents with high-quality scenic ecological waterside space.

- ◆ Everyone will be able to enjoy fast and convenient transport services. The high-speed railway, MRT systems, and regional road networks will mean that all of Taiwan is just a day trip from home.
- ◆ International seaports and airports and major science parks will be just ten minutes away from expressways.
- ◆ Main cities will be just one to two and a half hours apart, and it will take only 30 to 60 minutes to reach regional centers from within metropolitan areas and country towns.

- ◆ There will be ample amenities such as cultural centers, sports stadiums, parks, green footpaths, and bicycle trails, and people will be able to fully enjoy the same level of high-quality living facilities as in advanced countries.
- ◆ International-standard performance venues and national games or competitive sports arenas will be built island-wide, with 90% of them reachable within one hour.
- ◆ The island-wide information super-highway will be complete, with broadband coverage reaching 90%. People will be able to enjoy economic and high-quality e-living.
- ◆ Successful land restoration will reduce deaths and injuries from landslides to almost zero.

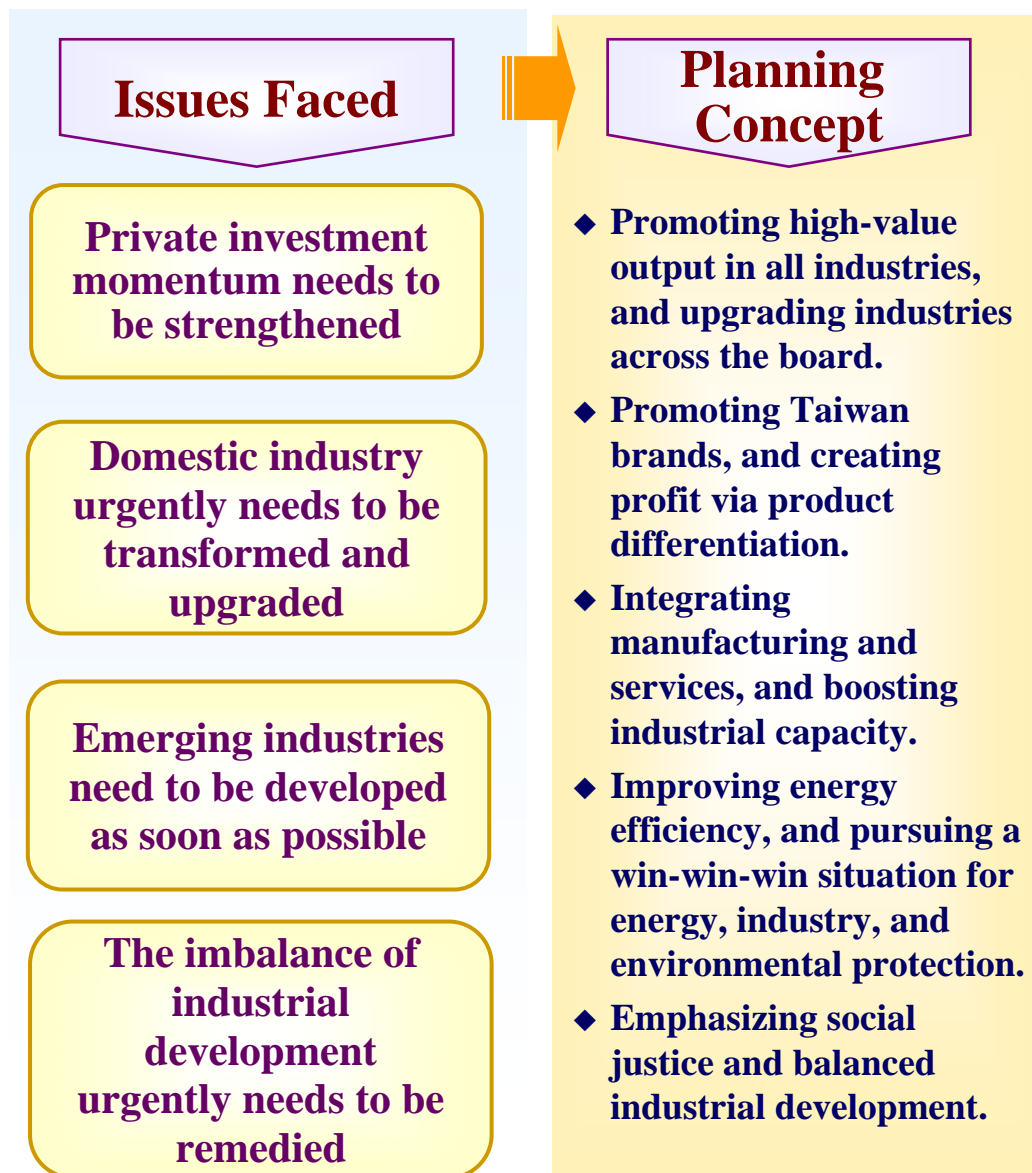

# Targets up to 2015

To give concrete manifestation to the policy implementation theme of “big investment and big warmth” and realize the national development vision of “a prosperous economy, a just society and a sustainable environment,” after giving consideration to the external and internal conditions previously described, the government has set the following macro-development targets for 2015, which it will seek to forge into a broad public consensus and spare no effort to achieve:

- Taiwan to be a unitary “living circle” in which no place is more than **a day trip** away.
- The CPI to rise by no more than **2%** a year.
- Per capita GDP to reach **US\$30,000** (US\$20,000 in 2009).
- The unemployment rate to be kept below **4%**.
- The economic growth rate to be sustained at an average of **5%**.
- The gap between the top and bottom quintiles of income to fall below a ratio of **six**.

# First-Stage Three-Year Sprint Program

## 1. Industrial Development Package

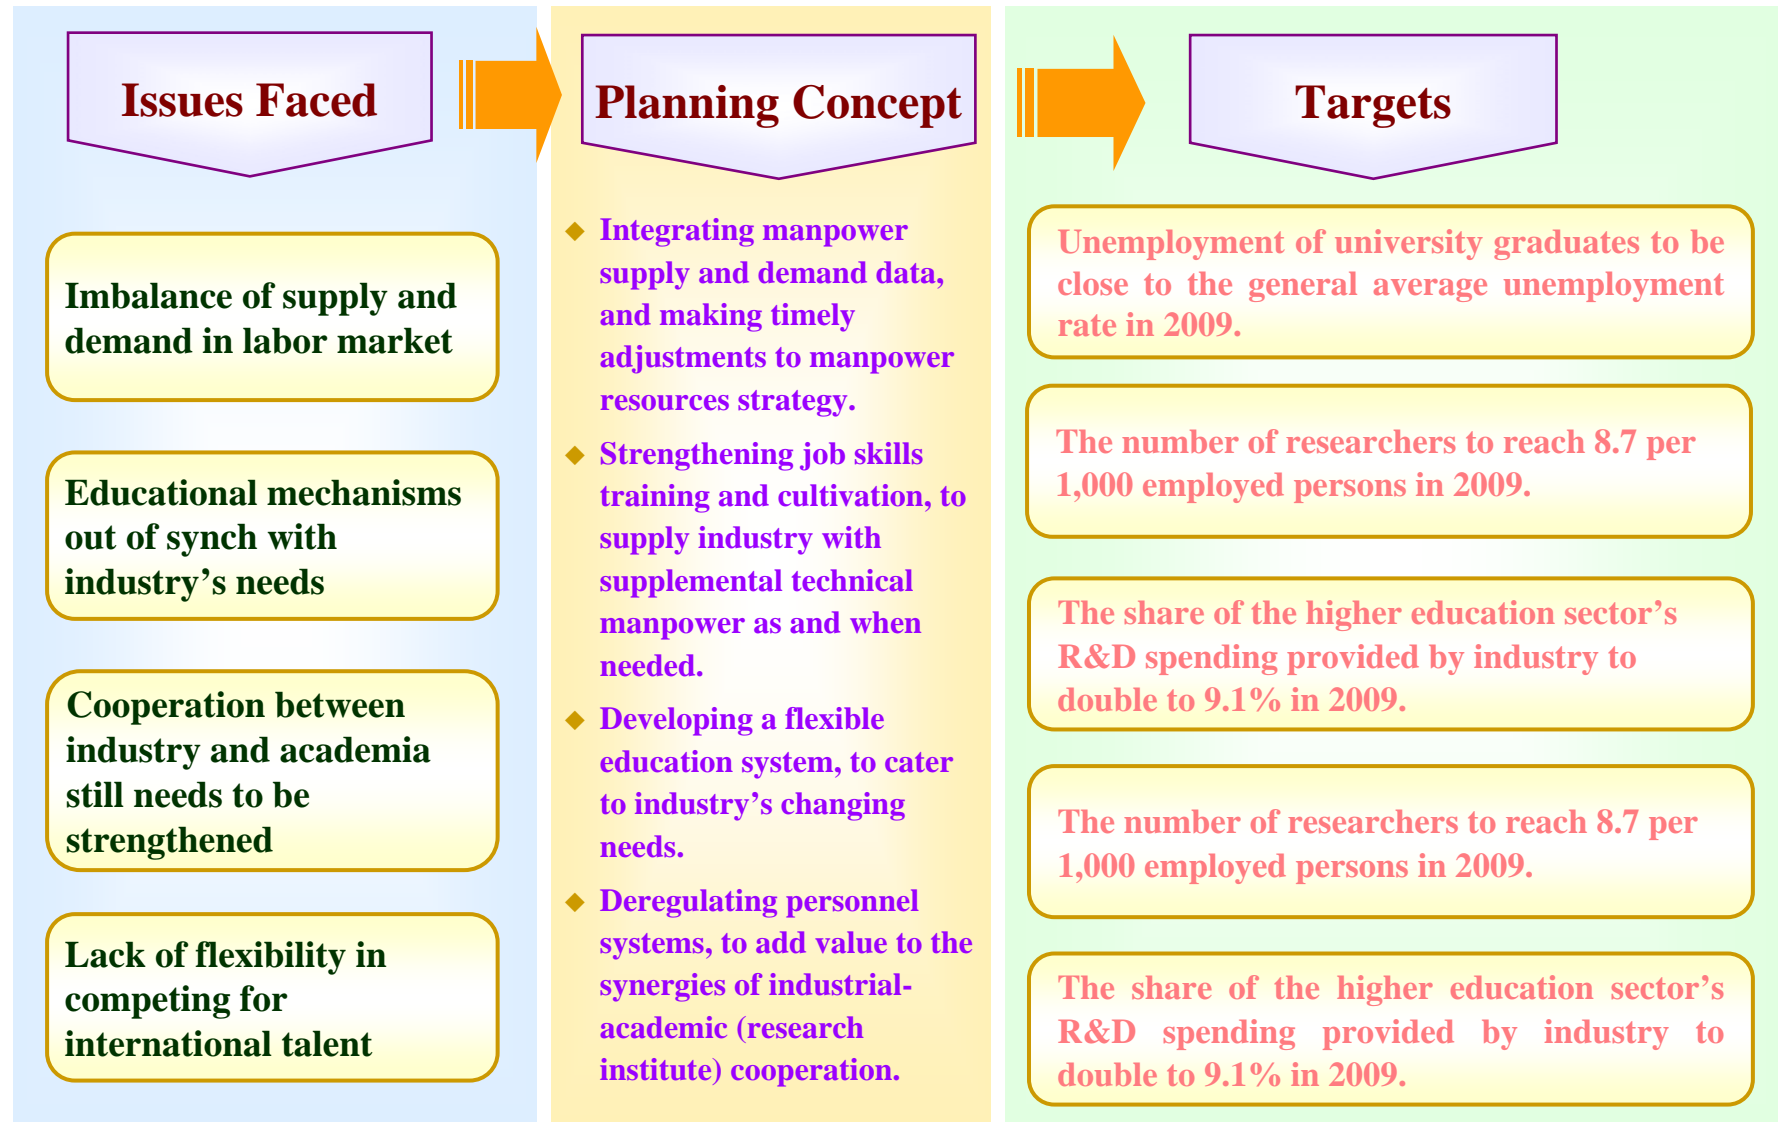

<b>Targets</b>			
	2005	2009	2015
<b>1. Industrial Structure (%)</b>
