### Open Government Partnership (OGP)

開放政府夥伴關係聯盟（OGP）是於 2011 年由 8 國政府（巴西、印尼、墨西哥、挪威、菲律賓、南非、英國及美國）與公民社會倡議者所共同創立，其目標為打造具課責性、回應性及包容性的政府，至今已有 78 個會員國，以及 20 個地方政府參加。

OGP 會員國每 2 年需提交一次國家行動方案，過程中應持續與公民社會合作，並在方案內提出具有透明、課責及參與等核心精神的承諾事項。

In 2011, 8 founding governments leaders (Brazil, Indonesia, Mexico, Norway, Philippines, South Africa, United Kingdom, and the United States) and civil society advocates came together to create Open Government Partnership—one that to promote accountable, responsive and inclusive governance. So far, there are seventy-eight countries and twenty local governments have joined in.

Every two years, each member submits an action plan co-created with civil society that outlines concrete commitments to enhance transparency, accountability and public participation in government.

To formulate Taiwan's first open government national action plan, the Executive Yuan will form a task force to promote the planning, coordination and execution of the action plan using the means of public-private partnership.

The National Development Council has successively convened meetings to which representatives of civil society and government were invited to formulate the action plan. Through these meetings, the draft plan's 12 commitments were initially drawn up, and opinions from the public were also consulted through Public Policy Online Participation Platform. The task force will discuss related matters of the commitments to develop the action plan.
