Conclusion: Acknowledged.

IX. Special Motions

New commitments for Open NetZero, Open Climate platform: The net zero pathway proposed for Taiwan to combat climate change requires communication with the public. The current dialogue consists mainly of communication between specialists and government officials and not yet been expanded to other sectors. The open government platform should be used to create Open NetZero, Open Climate platform to provide the public with communication channels so that they can learn more about climate change and build a national consensus for combating climate change. (Proposer: Joint convener Peng Chih-ming and committee members Lin Tzu-lun, Wu Min-hsuan, and Geng Lu)

Conclusion: The National Development Council and the Environmental Protection Administration, Executive Yuan are requested to assemble related agencies and members of the taskforce for discussions.

X. End of meeting. (12:00 pm)
